Choose From Four Credentialing Packages

Lung POCUS Certificate Course \$660 (inc GST)

This offer includes:

- Zedu's Lung Course (online)
- PCA's POCUS Fundamentals certificate
- PCA's POCUS Lung certificate

OB/First Trimester POCUS Certificate Course \$660 (inc GST)

This offer includes:

- Zedu's First Trimester Course (online)
- PCA's POCUS Fundamentals certificate
- PCA's POCUS OB/First Trimester certificate

POCUS Podiatry/MSK Lower Extremity Certificate Course \$2660 (inc GST)

This offer includes:

- Zedu's Ultrasound for Podiatrists 2 day course
- PCA's POCUS MSK Lower Extremity certificate

POCUS Emergency Medicine Certification Course \$9990 (inc GST)

This offer includes:

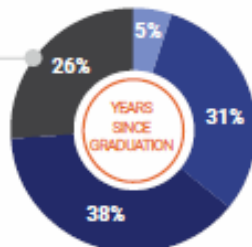

- Zedu's Introductory Ultrasound for Emergency Medicine 4 day course
- Zedu's Advanced Ultrasound for Emergency Medicine 4 day course
- PCA's POCUS Fundamentals certificate
- PCA's POCUS Emergency Medicine certification

Package Component Details

Zedu and the POCUS Certification Academy™ have combined their expertise to provide three programs designed to deliver practical, clinically relevant ultrasound skills underpinned by the certainty of internationally recognised proficiency.

- **The Emergency Medicine POCUS Course** – Zedu’s two most popular emergency courses designed to deliver practical skills in core POCUS applications (Introductory Ultrasound for Emergency Medicine 4 day course, Advanced Ultrasound for Emergency Medicine 4 day course) **PLUS** the Pocus Academy’s POCUS Fundamentals certificate and POCUS Emergency Medicine certificate proving proficiency in seven (7) clinical areas – AAA, Abdominal Trauma (including RUSH and eFAST protocols), Cardiac, Hepatobiliary/Spleen, Lower Extremity DVT, Lung, Obstetrics/First Trimester
- **The Lung POCUS Certificate Course** – Zedu’s online lung course **PLUS** the Pocus Academy’s POCUS Fundamentals certificate and POCUS Lung certificate which Includes components of the Rapid Ultrasound for Shock and Hypotension (RUSH) protocol and components of the Extended Focused Assessment with Sonography for Trauma (eFAST) protocol.
- **The 1st Trimester POCUS Course** – Zedu’s online early pregnancy assessment course **PLUS** the Pocus Academy’s POCUS Fundamentals certificate and POCUS Obstetrics/First Trimester certificate
- **POCUS Podiatry/MSK Lower Extremity Certificate Course** – Zedu’s Ultrasound for Podiatrists 2 day course **PLUS** the Pocus Academy’s POCUS Fundamentals certificate and POCUS MSK Lower Extremity certificate

Once you register with Zedu, you select your course, select dates if you are coming to a face-to-face course, gain access to the POCUS Certification Academy’s online portal and work your way through the material at your own pace.

The process has been designed with simplicity at its core.

You will leave us with practical ultrasound skills and certification in POCUS that is internationally recognised.

If you need any assistance or would like to talk about your credentialing options with Zedu please contact:

Let us help make credentialing easy

Zedu's POCUS Education and Training Courses

Lung Ultrasound – Online Course

This lung ultrasound course is a 10-hour online offering that empowers POCUS users to compare probe types, outline scan protocols and transducer placement, and identify imaging patterns and artifacts and their implications for lung pathology - including covid.

<https://www.ultrasoundtraining.com.au/online-modules/lung-online-module/>

1st Trimester Ultrasound – Online Course

This 1st trimester ultrasound course is an 8.5-hour online offering that empowers POCUS users in obstetric healthcare settings to compare transabdominal and transvaginal ultrasound, outline the scan protocols and transducer placement, describe sonographic appearances and diagnostic criteria for several obstetric events of normal intrauterine pregnancy, and outline the diagnostic criteria for pregnancy failure.

Introductory Ultrasound for Emergency Medicine – 4-day course

This emergency medicine ultrasound course is a 4-day in-person offering. The goals of this course include developing your abilities to optimize imaging for accurate diagnosis, achieve proficient probe manipulation, integrate and identify the limitations of ultrasound examinations, use systematic approaches to conduct ultrasound assessments, and demonstrate ultrasound guided needle placement for vascular access and procedural applications. Ultrasound examinations include eFAST, abdominal aortic aneurysm (AAA), Lung, and basic echo in life support. Ultrasound assessments include the assessment of trauma, AAA, shortness of breath, pericardial effusions, cardiac activity, and global function.

Advanced Ultrasound for Emergency Medicine – 4-day course

This emergency medicine ultrasound course is a 4-day in-person offering. The goals of this course include developing your abilities to optimize imaging for accurate diagnosis, achieve proficient probe manipulation, compare ultrasound examinations, and use systematic approaches to conduct ultrasound assessments. Ultrasound examinations include deep vein thrombosis (DVT), scrotum, OB/1st trimester, renal, and gallbladder, ocular and soft-tissue. Ultrasound assessments include the assessment of DVT, acute scrotum, early pregnancy pain and bleeding, ectopic pregnancy, renal calculi and hydronephrosis, gallstones and biliary pathology, ocular retinal detachments and foreign bodies, and soft tissue foreign bodies/lumps and bumps/tears/effusions.

Ultrasound for Podiatrists – 2-day course

This ultrasound course is a 2-day in-person offering focused on giving you the skills to dynamically assess the foot and ankle using ultrasound so that you can diagnose your patients and start treatment sooner. Learn how to guide injections with ultrasound to target the area of concern with precision and speed. Find out how to build a business case for integration into clinical practice and how to purchase the right machine for your clinical needs.
